## Who Qualifies for WV CHIP?

- ◆ **Age** - Children under age 19.
- ◆ **Income** - Qualifying income is based on the family's monthly or yearly gross income (before taxes) and family size. A family consists of a child or children and their natural or adoptive parents living together in the same home. (Step-parents and grandparents in the home are not counted, unless they have adopted the child). Expectant children can be applied to the family size.

Applicants can qualify for several income deductions. This could help a family qualify for CHIP if their family income is above the maximum limit.

Family Size	Regular WVCHIP Yearly Maximum Income	Premium Plan Yearly Maximum Income
2	\$26,400	\$29,040
3	\$33,200	\$36,520
4	\$40,000	\$44,000
5	\$46,800	\$51,480
6	\$53,600	\$58,960

- ◆ **Insurance** - If your child is covered by another health insurance plan, or was covered at any time during the past 6-12 months, the child may not be eligible. Call the toll-free helpline at 1-877-982-2447 for insurance exceptions.
- ◆ **Copayments** - The regular WVCHIP Plan has no copays on preventive care, dental, vision or generic prescriptions. Higher income families will be responsible for co-pays on inpatient services, outpatient procedures, non-well visits and emergency room visits. All members will be subject to a copay on brand name prescriptions. For more information on copays, visit [www.wvchip.org](http://www.wvchip.org).
